

OVERVIEW

Green Star Central eases the pain of running a Green Star project. It automates the common repetitive aspects, such as determining which documents to submit, emailing the various team members, tracking points, creating PDFs, adding bookmarks and creating submissions folders. A default submission can be created with one click.

PLANNING	TRACKING	REPORTING	COMPILATION
<ul style="list-style-type: none">• Pre-selects points for 4, 5 and 6 star projects• Encompasses all GS tools• Pre-selects typical necessary documents	<ul style="list-style-type: none">• Pre-fills document requirement for each credit and discipline• Automatically emails team members	<ul style="list-style-type: none">• Provides discipline-specific requirements• Provides summary dashboard• Exports to MS Project for Gantt charts	<ul style="list-style-type: none">• Combine all documents into a single PDF• Insert appropriate bookmarks• Create GBCA directory structure
